Message from Principal

Dear Parents & Students,

I am very fortunate to work with such dedicated, innovative and caring staff members, parents and students. I find each day an adventure filled with new experiences, learning for all, and a chance to constantly widen our horizon.

We at SKS do believe that every child is biologically programmed to learn the things provided he/she is given a conducive, congenial and compassionate environment that may nurture and foster his/her skills and abilities in a vibrant and vivacious manner.

We believe in empowering, our children in such a manner that they act as representatives of a meaningful and value-based society.

Even during this turbulent time, the bedrock relationships of students and teachers helped us to fight and grow with our full potential. The students are encouraged to take part in all the activities and are given enough guidance and practice before being exposed to the competitions. With the nurturing they get from the school they would definitely become the future leaders and role models of society.

I am really feeling elated to share first newsletter of the School.

God Bless You All

Principal
